

# Material Safety Data sheet

According to 1907/2006/EG annex II (REACH-regulation)

Latest Revision: 01/11/2008

MSDS No :

## Fomtec FFFP 3% & FFFP 6% (ICAO)

### 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Identification of the substance or preparation : FFFP 3% & FFFP 6% (ICAO)

Use of the substance/preparation : Fire Extinguishing Foam Concentrate

Company/Undertaking identification : Dafo Fomtec AB, P.O. Box 683, SE – 135 26 Tyreso, Sweden  
Tel: +46 8 506 405 66  
Fax: +46 8 506 405 29

Emergency telephone :

### 2. HAZARD IDENTIFICATION

- Irritating to eyes

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

No	Name of Ingredient	CAS-No	EINECS-No	Cons.Weight% FFFP 3% & 6% ICAO	Health class
1	Hydrolised protein	100085-61-8		Balance to 100%	
2	Hexylene glycol	107-41-5	203-489-0	5-12	Xi, R36/38
3	Fluorosurfactants	-	-	<5	Xi R,36/38
4	Sodium chloride	7647-14-5	231-598-3	10-16	
5	Magnesium sulphate	10034-99-8	231-298-2	0.5-2	
6	Bactericide	55965-84-9	247-500-7	<0.5	Xi R34/43/50/52

### 4. FIRST AID MEASURES

- Eye contact : Rinse thoroughly with running water at least for ten minutes. Seek medical advice if symptoms persists.
- Skin contact : Remove contaminated clothing etc and wash skin thoroughly with water. Seek medical advice if irritation persists.
- Ingestion : Rinse mouth with water. Give lots of water to drink. Do not induce vomiting. Seek medical advice if you are unwell.
- Inhalation : Remove the casualty into fresh air. Seek medical advice if symptoms Persists.

### 5. FIRE FIGHTING MEASURES

- No specific measures are required as the product itself is a fire fighting agent. If product containers are involved in fire, then a suitable extinguishing agent should be used.
- Evacuate all personnel, use protective clothing use breathing apparatus if required.
- Stop release of product to fire, Keep away from heat, use water to cool tanks. Move tanks from fire area if possible with out risk. Fire to be fought from safe distance. Poisonous decomposition products may be created during a fire.

### 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions : Avoid eye and skin contact. Supply fresh air in enclosed spaces. See heading 8 of this MSDS.
- Environmental precautions : Seal off the spill area with absorbing materials to avoid spreading of release to water or water treatment systems.
- Method for cleaning up : Shovel up the absorbed material and place in a labeled, sealed container for subsequent disposal.. The practice of washing in to drains should be avoided.

# Material Safety Data sheet

According to 1907/2006/EG annex II (REACH-regulation)

Latest Revision: 01/11/2008

MSDS No :

## Fomtec FFFP 3% & FFFP 6% (ICAO)

### 7. HANDLING AND STORAGE

- Handling : The product should be diluted before use. Avoid skin and eye contact. Use personal protective equipment according to section 8. Avoid spill around the containers, the material may be slippery.
- Storage : Product should be stored in sealed, original containers. Freezing and thawing do not effect the properties but care must be taken to avoid freezing of the container and its contents since the expansion of the container contents may cause cracking of the completely rigid container as ice forms. Do not store above +50C for longer periods.  
Must comply to the national regulations for products classified as water hazard class 1.

### 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Occupational Exposure limit values:

Haexylene glycol ( 4-methyl-2,4-pentane diol ) CAS No: 107-41-5

WEL-STEL / EC-STEL 125 mg/cu.m.

Long term exposure limit (8 hour time weighted average) : 25ppm

Short term exposure limit (10 minutes) : 25ppm

Exposure Controls: : Work under local ventilation

Hand protection : Suitable gloves made from nitrile or butyl rubber

Eye protection : Use safety goggles

Skin protection : Use protective clothings such as overalls

Respiratory protection : Gas mask with filter type A may be used if concentration in air > exposure limit

Environmental exposure control : Store or dispose concentrate in accordance with national regulations

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Type of material:	Liquid
Colour:	Dark brown
Odour:	Organic odour
Solubility:	Miscible with water in all proportions
Freeze point:	-17 C
Specific gravity at 20 C	1.14 – 1.20
pH	6.0 – 8.0
Viscosity Brookfield	<20 c.st
Boiling point	100 C at 760mm Hg
Flash point:	>98 C
Flammability	Not flammable
Oxidising properties	None
Explosive properties	Product has no explosive property

### 10. STABILITY AND REACTIVITY

- Material to avoid : Keep away from heat sources. Avoid strong oxidisers.
- Conditions to avoid : Stable under normal conditions
- Hazardous decomposition products : Thermal decomposition of containers and/or products may generate acrid smoke, fumes, carbon monoxide, carbon dioxide (oxygen depleting), traces of nitrogen oxide and Sox.
