

FEATURES

- *Developed in cooperation with professional fire fighters*
- *Unique accessories*
- *High performance*

Description

SweFan 24'' is the result of a development project between Dafo and the Swedish National Fire & Rescue Service. SweFan 24'' has been built for and in cooperation with professional fire-fighters, and has the flexibility and performance demanded in every situation. The unique accessories, such as the door adapter and the high expansion foam adapter, in combination with the proven performance make it the reliable and versatile choice for PPV professionals.

Lay flat air/foam transport hose

High expansion foam adapter
